

# Security Solutions

## Communal Entrance Doors

- INHERENTLY STRONG, STEEL OR ALUMINIUM
- ATTACH RESISTANT DESIGN
- TOUGH AND RESILIENT
- COMPATIBLE WITH ALL ACCESS CONTROL SYSTEMS
- VARIETY OF COLOURS AND FINISHES
- DESIGN, MANUFACTURE AND INSTALLATION

Main entrances without adequate security are magnets for vandals, drug dealers and other criminals. This becomes distressing for residents living in the flats and becomes costly for landlords.

SPS provide a complete solution in Communal Entrance Door Security, this includes Communal Door replacement, upgrade, and maintenance services. We offer a large choice of door furniture, hinge, closers, glazing, automated closer, handle, push/kick plate. All doors can be powder coated finished to any RAL colour.

Your requirements are identified at our first meeting and inspection of the door. From this meeting we can design the door to meet a standard specification or to meet your own individual requirements. The doors are designed to the highest standard and installed by fully trained, experienced operatives.

Communal Entrance Doors and Side Screens are made to meet the demands of day to day access control, fully compatible with all electronic and mechanical locking systems.
