

# Estate Management

## Accompanied Viewings

SPS' huge variety of services usually means that we have secured, cleared, tidied or maintained the same property over and over again. To complement our services we offer accompanied viewings.

As Tenants, Buyers, Landlords and Council Workers may need access to the property from time to time, SPS will meet, escort or accompany the visitor to the property allowing you to manage other things.

We operate a Keyholding Service; therefore it makes practical sense to ask us to meet the visitor on site at a pre-arranged time, unlock the property and secure it once the viewing has taken place, confirming the property is secure to your registered contact.

Take the hassle out of this very necessary task and call SPS on 08457 626542 to discuss your requirements.

To place an order or for further information about this product call SPS:
